

V Groove Ledged Doors complete a stunning woodland holiday cottage

Henlle Hall was looking for a luxurious yet rustic feel to suit their new woodland lodges

The Customer

Henlle Hall Holidays

Henlle Hall Holiday Cottages is nestled in rural shropshire and offers guests a unique experience with brand new rustic lodges scattered through the woodland adjacent to the Hall as well as tastefully converted stable blocks as part of the main house.

Heritage Select Rustic V Grooved Ledged doors were an ideal fit for the luxurious quality feel that they were looking for whilst fitting in perfectly to the rustic charm of the period style lodges.

Henlle Hall have now built around 8 seperate lodges in the woodland grounds, each complete with stylish interior, deck and hot tub.

When fitting out the interior a quality and luxurious was high on the priority list, but the lodges needed to follow the rustic log cabin style theme that had been decided on.

Henlle chose Heritage V Grooved oak ledged doors as a perfect solution to this design requirement.

Select Rustic turned out to be the perfect timber grade with a pleasing balance of knots and character.

were required and Heritage's ability to supply custom sized doors was a life saver. Many of the doors were fitted with the optional bracing pack to create the period ledged and braced appearance.

Henlle Hall chose to finish off their installation with Heritage hand forged beeswax hardware in some lodges and pewter in others. Full hardware kits contain everything needed to hang the door and are very cost effective.

We think the end result looks absolutely stunning and with high occupancy rates, Henlle Hall customers seem to agree!
